**THE SENATE REAFFIRMS THE MONROE DOCTRINE.**

Condition of Affairs in Hayti and Samoa - Details of the Sundry Civil Bill - Gossip.

WASHINGTON, Jan. 8.—In the Senate Mr. Hoar, from the judiciary committee, reported back the Senate bill to abolish Circuit court powers in certain district courts of the United States and to provide for writs of error in capital cases. The bill was passed.

Mr. Cockrell, from the committee on public lands, reported the bill to establish the Lincoln land district in the Territory of New Mexico. The bill was passed.

Mr. Chandler reported a resolution, which was referred to the committee on contingent expenses, instructing the committee on the Mississippi river to continue its investigations into the existing and proposed methods of work, including the whole subject of the Mississippi river.

The resolution heretofore adopted, and Mr. Gray rose to make some remarks, but was interrupted by a motion made by Mr. Edmunds, and seconded by Mr. Hoar, that in the consideration of that subject the doors be closed. The galleries were accordingly cleared, the doors closed, and the Senate at 12:35 proceeded to the discussion of the subject in secret session.

**The House.**  
WASHINGTON, Jan. 8.—In the House immediately after the recess of the journal the contest over the proposed change of rules, abolishing the call of States on suspension Mondays, was resumed. Mr. Reed (Maine) calling up the resolution from the committee on rules.

The question being on ordering the previous question, the clerk proceeded to call the roll. The vote resulted: yeas 112, nays 22.

20 less than a quorum, and the roll of the House was ordered. The call developed the presence of 223, and the further proceedings under the call having been dispensed with, the vote was again taken on order of the previous question upon the resolution.

**THE SUNDRY CIVIL BILL.**  
AN Aggregate Appropriation of \$22,852,996—Some of the Items.

WASHINGTON, Jan. 8.—The sundry civil bill, which has been completed by the House appropriations committee, amounts in the whole to \$22,852,996. The bill forbids the secretary of the treasury preparing or approving plans for public buildings in advance of appropriation for the same, or the approval of any plan involving a greater expenditure than the sum specified in the act making the appropriation.

The United States also be freed from responsibility for the paving of streets surrounding public buildings; commissions are not to be paid on account of disbursements for such buildings except for money actually handled by discharging agents, and the government is to be relieved from legal expenses connected with the procurement of titles to sites. The expenditure of "silver" funds for the transportation of silver dollars from mints or sub-treasuries to Washington is prohibited, the reason assigned being that it will cost \$175,000 to transport the \$75,000,000 now at San Francisco to Washington, while a suitable vault can be constructed at the first-named city for one-fifth that sum.

Under the head of the signal service the bill authorizes the issue of meteorological instruments of a value not exceeding \$15 to voluntary unpaid observers. The existing statutes bearing upon the publication of the rebellion records are amended, so as to authorize the secretary to appoint a committee of expert clerks from the Adjutant-General's office to revise the manuscript before publication and the records selected for publication are made accessible to the public. The accounts of United States marshals are required to be audited within six days after presentation.

The speaker of the present House is empowered to appoint a committee of members-elect of the next House to visit Alaska next summer and make an investigation concerning the necessity for a uniform code of laws for the government of the Territory, for which purpose \$7,500 is appropriated.

Among the items of appropriation are the following: Congressional library building, \$500,000; summer volunteer soldiers, \$1,995,896; construction of public buildings, \$1,787,001; surveys of public lands, \$205,000; public printing, \$2,218,000; quarantine service, \$30,000; fire alarm, \$100,000; breakwater, \$55,000; light house at Twin River Point, \$80,000; Rock Island towers, \$36,000; draw bridge at Rock Island, \$30,000; half of this latter amount, as well as half of the former appropriation of \$50,000 is to be refunded by the Chicago & Rock Island railroad. The bill also makes appropriations for clocks for the Chicago public building and for a light-house on the Illinois river.

Appropriations are made to complete public buildings at Bay City, Mich., \$100,000; Denver, Col., \$50,000; Detroit, Mich., \$150,000; Duluth, Minn., \$75,000; Evansville, Ind., \$100,000; Jackson, Mich., \$60,000; Louisville, Ky., \$121,000.

**SAMOA AND HAYTI.**  
No War Ships Ordered to Asia—Relief Vessels for Admiral Lucie.

WASHINGTON, Jan. 8.—The Secretary of State has received cable advices confirming the reports of a battle in Samoa between German forces and Mataafa's army. He refuses, however, to give any details to the press. It is said at the navy department that no war vessels will be ordered to Samoa, but there are three that could be sent if necessary. One of these is the Trenton, now at Panama, and the other two are the Vandalia and the Monitor, which are fitting out at San Francisco. It is hardly likely, however, that any of these vessels could reach Samoa in time to be of any assistance to the Nijis in the present crisis.

The Atlanta navy yard, which is ordered to Port-au-Prince to relieve the Albatross, as it is deemed prudent to have that vessel leave the infected neighborhood as soon as possible. According to the present policy of the department two naval vessels will cruise in Haytian waters until the present revolution is at an end, but no vessel will be exposed to the danger of fever contagion for any length of time. The Osipope and Atlanta are said to be the only vessels available for relief vessels. The Osipope has already sailed for Port-au-Prince.

BERLIN, Jan. 8.—Several of the evening papers of this city, commenting on affairs in Samoa, have expressed the opinion that the ponderance of German commercial interests over American and express the hope that the American Government will recognize this and stop the intrigues of Americans and facilitate an agreement between the contending parties, which is within the scope of the influence of the United States.

**THE MONROE DOCTRINE AFFIRMED.**  
Mr. Edmunds' Panama Canal Resolution.

WASHINGTON, Jan. 8.—The Senate spent the whole of Monday afternoon in secret session, discussing the Edmunds Panama resolution, which was finally adopted by a vote of 98, yeas 39, nays 3, after being modified as follows:

"Resolved, By the Senate and House of Representatives of the United States of America in Congress assembled,

That the President be and is hereby requested to communicate to the Senate the views of the government of the United States to the governments of the countries of Europe.

Those who voted nay were Blackburn, Hampton, and Vance.

On motion of Mr. Allison the existing order as to the vote on the tariff bill was extended for one day in consequence of the day's session having been occupied by the Panama canal resolution, so that the vote on the tariff bill is to be taken on Jan. 23, at 1 o'clock. Adjourned.

**CHINESE EXCLUSION.**  
The Supreme Court Appealed to to Admit a Mongolian.

WASHINGTON, Jan. 8.—A motion was made in the Supreme court of the United States to-day by ex-Governor Hoadley, of Ohio, to allow for argument the case of Chao Chan Ping, appellant, versus the United States. The appellant is a Chinese laborer who departed from the United States for China June 1887, and having secured a return certificate from the collector of the Port of San Francisco, as required by law. He returned to the United States in 1888, but permission to land was refused him on the ground that the return certificate had been declared void by the Scott Chinese exclusion act of Oct. 1, 1888. Chao Chan Ping then having a last of his corpus in the United States Circuit court, which being refused an appeal was taken to this court. It is contended in his behalf that the Scott act declared the return certificate void is unconstitutional and an abrogation of vested rights. It is sought to have the case advanced for hearing on the ground that the case is one of great importance.

The thousands of certificates, many of the holders of which have considerable property interests in the United States, and that a delay in the determination of the case will result in great injury to the persons affected.

**Says It Was Not Genuine Yellow Fever.**  
WASHINGTON, Jan. 8.—Dr. J. C. Summers, a physician of Jacksonville, Fla., now here for conference with officials of the marine-hospital service, says the recent epidemic in Florida was not genuine yellow fever, but the specific character of the disease resembled in every respect chagras fever, so common in South America. The doctor says Florida has fully recovered from the effect of the epidemic and business is again flourishing.

**SULLIVAN AND KILRAIN.**  
The Terms of Their Proposed Fight Set.

TORONTO, Ont., Jan. 8.—John L. Sullivan, accompanied by Jack Barnett, of Boston, arrived here Monday morning and proceeded on foot to the Russian House, where he was met by Dr. Davies and W. E. Harding, representing Jack Kilrain, C. Johnson and John L. Sullivan, representing the latter, and E. A. Plummer and W. H. Gentry, who acted as timekeepers, to arrange the terms of the proposed fight.

While waiting for some agreement to be reached the others discussed the chances of the fight. Sullivan's friends admit that he is not fully recovered from his illness, but assert that he will be as good as ever when the time for the fight comes. He now weighs 212 pounds against 150 some time ago, and his appetite is first-class. Kilrain's friends on the other hand say that he will tire Sullivan out in the first five or six rounds and then whip him easily.

An agreement was reached in a comparatively short time as to the main conditions of the fight. Mr. Harding said that both parties agreed that the fight should come off near New Orleans the 8th of July for a purse of \$25,000, the largest amount ever fought for, and the championship belt. Over the last provision there was a pretty hot discussion, but it was finally agreed on by both parties. Ten thousand dollars is already up at the Clipper office in New York. An additional \$5,000 will be put up in New York the 15th of April. The referee could not be fixed upon, and it was agreed to appoint him at the ring side. Mr. Harding said that the papers would probably not be signed in Toronto through fear of the law, but that they would be signed in Hamilton or some other Canadian town.

**HARDING WILL REMAIN IN TORONTO FOR A DAY OR TWO.** Sullivan and his party left on the 2:50 p. m. train.

**THE "Q" STRIKE OVER.**  
Agreement of the Company With the Late Strikers.

CHICAGO, Jan. 8.—The official announcement of the settlement of the long-continued Burlington & Quincy strike has been made. The terms of the company to the men are given in the following from President Perkins:

"The company will not follow up, black list, or in any manner attempt to proscripe those who were concerned in the strike, but, on the contrary, will cheerfully give to all who have not been guilty of violence or other improper conduct letters of introduction showing their record in our service, and will in all proper ways assist them in finding employment."

"The first duty of the management is to those who are in the company's employ, and we must remember and protect their interests by promotions and by every other means in our power. Beyond this, if it should become necessary to go outside of the company, we would be glad to do so, and in making selections not to exclude those who were engaged in the strike."

On Jan. 27, the strike was ended, and provided they have not since been guilty of violence and other improper conduct."

**Failure in the Brick Trade.**  
CHICAGO, Jan. 8.—The Mayenberg brick company made an assignment this morning, the company being in the office of the clerk of the county court. Wyllys S. Abbott is the assignee. The liabilities of the firm as scheduled are \$40,000, and assets are \$50,000.

**How Doctors Conquer Death.**  
Dr. Walter K. Hammond says: "After a long experience I have come to the conclusion that the most effective remedy from cough, pneumonia and consumption, might be avoided if Dr. Acker's English Remedy for consumption were only used in time. This wonderful remedy is guaranteed to cure the most distressing cases of cough, pneumonia and consumption, and is now being sold by Prentice & Evenson, druggists."

**Dr. Acker's English Remedy for Consumption.**

America in Congress assembled, that the government of the United States will look with serious concern and disapproval upon any condition of any European government with the construction or control of any canal across the isthmus of Darien or across Central America, and must regard any such construction or control as injurious to the just rights and interests of the United States and as a menace to their welfare.

2. That the President be and is hereby requested to communicate this expression of the views of the government of the United States to the governments of the countries of Europe.

Those who voted nay were Blackburn, Hampton, and Vance.

On motion of Mr. Allison the existing order as to the vote on the tariff bill was extended for one day in consequence of the day's session having been occupied by the Panama canal resolution, so that the vote on the tariff bill is to be taken on Jan. 23, at 1 o'clock. Adjourned.
